

Call for Application

4th Summer School on Health Economics

Indian Health Economics and Policy Association (IHEPA) in collaboration with Azim Premji University, Bengaluru and Centre for Multi-Disciplinary Development Research (CMDR), Dharwad is organizing a five-day Summer School on 'Health Policy Analysis: Theory and Measures' at CMDR, Dharwad during June 25–29, 2019. MPhil/PhD students and early career researchers working on applied health economics and policy issues can apply. It will introduce participants to various approaches to health policymaking with emphasis on concepts and measurement. A team of scholars will help the participants to sharpen their ideas in the area of health economics and policy and to develop a full-fledged research proposal with strong conceptual and methodological base. For more details and submitting application, visit <http://ihepa.in> or write to secretary.ihepa@gmail.com

Important dates

Last date of submission of online application: **April 30, 2019**

Communication on acceptance from IHEPA: **May 10, 2019**

Dates of the Summer School: **June 25–29, 2019**

EPWRF India Time Series

Expansion of Banking Statistics Module

(State-wise Data)

The Economic and Political Weekly Research Foundation (EPWRF) has added state-wise data to the existing Banking Statistics module of its online India Time Series (ITS) database.

State-wise and region-wise (north, north-east, east, central, west and south) time series data are provided for deposits, credit (sanction and utilisation), credit-deposit (CD) ratio, and number of bank offices and employees.

Data on bank credit are given for a wide range of sectors and sub-sectors (occupation) such as agriculture, industry, transport operators, professional services, personal loans (housing, vehicle, education, etc), trade and finance. These state-wise data are also presented by bank group and by population group (rural, semi-urban, urban and metropolitan).

The data series are available from December 1972; half-yearly basis till June 1989 and annual basis thereafter. These data have been sourced from the Reserve Bank of India's publication, *Basic Statistical Returns of Scheduled Commercial Banks in India*.

Including the Banking Statistics module, the EPWRF ITS has 18 modules covering a range of macroeconomic and financial data on the Indian economy. For more details, visit www.epwrfits.in or e-mail to: its@epwrf.in
