**Wage Rates in Rural India**

The **EPW Research Foundation** has added a module on Wage Rates in Rural India to its online database, EPWRF India Time Series (EPWRFITS).

This module provides average daily wage rates, month-wise, in rupees, for various agricultural and non-agricultural occupations in Rural India for 20 states starting from July 1998 (also available, data for agricultural year July 1995–June 1996). Additionally, it presents quarterly and annual series (calendar year, financial year and agricultural year), derived as averages of the monthly data.

The wage rates for agricultural occupations are provided for ploughing/tilling, sowing, harvesting, winnowing, threshing, picking, horticulture, fishing (inland, coastal/deep-sea), logging and wood cutting, animal husbandry, packaging (agriculture), general agricultural segment and plant protection.

The non-agricultural occupation segment presents wage rates for carpenters, blacksmiths, masons, weavers, beedi makers, bamboo/cane basket weavers, handicraft workers, plumbers, electricians, construction workers, LMV and tractor drivers, porters, loaders, and sweeping/cleaning workers.

The data have been sourced from *Wage Rates in Rural India*, regularly published by the Labour Bureau, Shimla (Ministry of Labour and Employment, Government of India).

With this addition, the EPWRFITS now has 20 modules covering both economic (real and financial sectors) and social sectors.
